NO-FURTHER-INVESTIGATION CONCURRENCE ON GROUP III POTENTIAL
RELEASE LOCATIONS 295, 315, 324, 326, 369, 380, 390, 643, 655, AND PRL
RAILROADS, FORMER MARINE CORPS AIR STATION EL TORO, IRVINE,
CALIFORNIA

Dear Mr. Newton:

The Group III Potential Release Locations (PRLs), which consist of the subject PRLs and PRLs 296, 297, 605, and 606, were evaluated for potential releases of hazardous substances into the environment and the results of the evaluation were presented in the Summary Report for Environmental Baseline Survey dated October 2005. Based on DTSC's February 3, 2006 comments on the report and discussion at the September 27, 2006 Base Re-Alignment and Closure (BRAC) Cleanup Team meeting, DTSC agreed to provide concurrence with the No-Further-Investigation (NFI) recommendation for the subject PRLs. The Department of Navy (DoN) agreed to conduct additional investigation at PRLs 296, 297, 605, and 606 as part of the Group IV PRLs.

As a result, DTSC hereby concurs with the recommendation of NFI for the subject PRLs. We are looking forward to receiving results of additional investigation at the other four PRLs. If you have any questions regarding this letter, please contact Quang Than, Remedial Project Manager at (714) 484-5352 or qthan@dtsc.ca.gov.

Sincerely,

Manny Alonzo, Unit Chief
Base Closure and Reuse Unit
Office of Military Facilities
Southern California Branch

Mr. Darren Newton
